Patio roof

Your Stanza[®] dealer:

Stanza®

Patio roof

A quality patio roof made of aluminium profiles does not cost a fortune. The evidence of this is the Stanza. A low-budget patio roof which can be adapted to your personal taste and requirements.

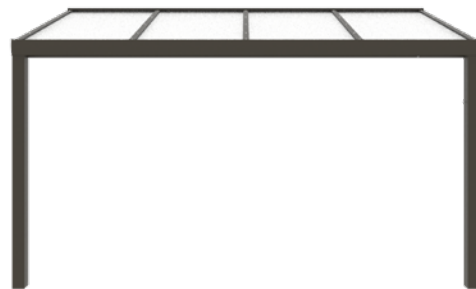

You have the choice of a range of colours, including the unique sepia coloured textured finish. The roof of the Stanza can be fitted with either clear or opalescent polycarbonate panels. The Stanza is the only system that both keeps out the rain and offers a bit of shade, but most effective in combination with a sun protection system.

Stanza can be combined with either a Summerlight or Solidare conservatory awning. Further, it offers the option of attaching the SolidScreen (vertical screen), to block both sun and wind effectively.

Characteristics

- ⤵ Averts rainfall
- ⤵ Favourable price-quality ratio
- ⤵ Choice of roof finishing
- ⤵ Various sun protection systems applicable
- ⤵ Vertical zip-guided screen (SolidScreen) applicable
